## THE MULTI-VERSION PALLET **MV-800**

THE MULTI-VERSION PALLET

### The unique multi-version pallet

- Standard type or reinforced racking type
- 3 upper deck options
- 7 lower deck options
- Great racking performance
- One-piece integrated injection moulded pallet gives improved strength and hygiene.
- HDPE structural foam technology
- Fully recyclable
- Enhanced runners for heavy-duty use
- Excellent performance for extreme temps. -40°C up to 60°C
- Long life span
- Multi-version options allow you to select the best solution according to your specific requirements
- RFID compatible

## MV 800 – the multi version pallet

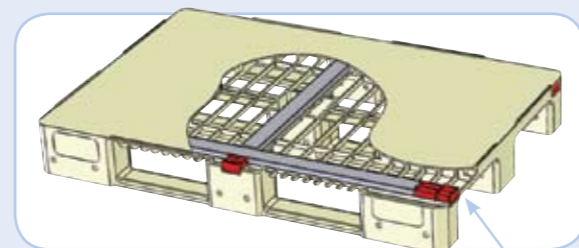

### Standard type OR reinforced racking type

**Standard pallet for regular use** - This pallet is the perfect solution for regular (light to medium) use of pallets which can bear **static** loads up to 6000 kg.

**Heavy duty reinforced pallet for racking** This sturdy pallet is designed for heavyduty use with reinforcement to suit up to 1500 kg, in **racking** systems.

Standard pallet

Reinforced pallet

### Upper Deck Options

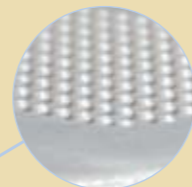

#### Solid

#### Perforated

#### Solid with "anti slip" surface

### Lower Deck Options

#### Three runners type

standard

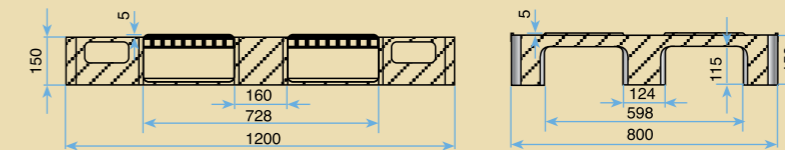

#### Two runners and three feet type

standard

#### Two runners and two feet type

standard

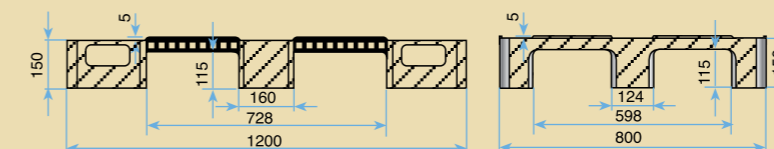

#### Eight feet type

non standard

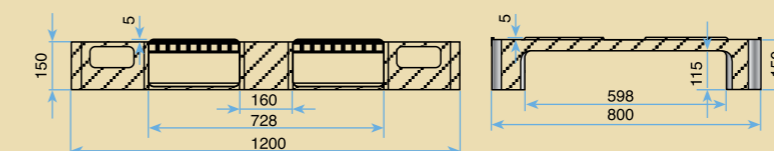

#### Nine feet type

standard

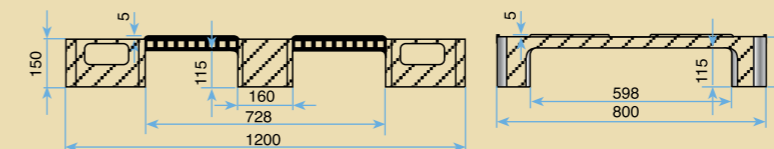

#### Two runners w/o feet type

non standard

#### Six feet type

non standard

For non-standard options please contact us

### Outer Rim

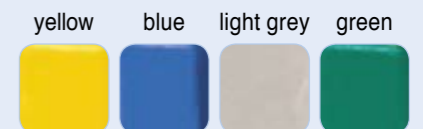

Optional safety outer rim along the edge of the pallet

standard pallet includes outer rim

### Colours

Standard colours:

more colours available for min. quantity of 1000 units.

### RFID compatible

### Logo

Screen-printed or embossed logo
